

## **I. Introduction**

1. This Action Plan was adopted by the States Parties to the Convention on Cluster Munitions (CCM) Vientiane, Lao People's Democratic Republic, 9-12 November 2010, in consultation with the United Nations, The International Committee of the Red Cross and the Cluster Munition Coalition and other partners.
2. The objective of this Action Plan is to ensure effective and timely implementation of the provisions of the CCM following the First Meeting of States. The Plan sets out concrete and measurable steps, actions and targets to be completed within specific time periods and defines roles and responsibilities. The actions are not legal requirements, but designed to assist States Parties and other relevant actors in their practical implementation of the Convention, and thus to support States Parties in meeting their obligations. With the adoption of this plan, states parties send a strong message on their commitment to the rapid implementation of the Convention.

Some actions are designed as milestones to ensure timely implementation of comprehensive and resource intensive tasks. Others are designed to assist States Parties in structuring their response to their commitments under the Convention.
4. The Action Plan aims to ensure that the Convention can have immediate impact on the ground, address current implementation challenges, react to future developments, and to reflect changes in implementation challenges. The Plan includes actions to be taken in the year leading up to the Second Meeting of States Parties as well as actions to be undertaken prior to the First Review Conference of the Convention. Specific actions may be revised or substituted at future Meetings of States Parties, if necessary, such as when States Parties succeed in meeting their obligations and new circumstances arise due to additional States joining the Convention.
5. The States Parties to the Convention on Cluster Munitions agree on the following actions in order to fulfill their ultimate aim of ending for all time to the suffering and casualties caused by cluster munitions:
