Organizations for destruction of operations undertaken in the framework of these activities also being have been found and destroyed. Operations, 503 cluster munitions operations, 2012, in the process of disarmament conducted in Tajikistan. Thus, against cluster munitions is being effective and productive work program on Mine Action, an within the framework of the I would like to inform you that I would like to state that prohibition of cluster munitions. Tajikistan supports the efforts of international community to prevent proliferation of cluster munitions.

Dear Participants,

Of war still continue to harm people. Of war still continue to harm people. Unfortunately, these remnants and, unfortunately, these remnants during the internal armed conflict during the internal armed conflict during the internal armed conflict during the internal armed conflict during the internal armed conflict. From this type of munitions, Tajikistan is a country that suffered international community that we have already informed the consequences. We create serious consequences.

I would like to state that Tajikistan supports the efforts of international community to prevent proliferation of cluster munitions. Tajikistan supports the efforts of international community to prevent proliferation of cluster munitions. Tajikistan supports the efforts of international community to prevent proliferation of cluster munitions. Tajikistan supports the efforts of international community to prevent proliferation of cluster munitions.

First of all, let me thank the organizers of this important conference! Colleagues!

Dear Chair, Co-Chairs and

Geneva (Switzerland), 16 – 19 April, 2012.
Presentation of Republic of Tajikistan in the Inter-Sessional Meetings of States Parties to the Convention on Cluster Munitions.
The government understands the cooperation in this area, there is still a need for international protection of these victims, but taking necessary measures as social rehabilitation. The Government is victims need help and these munitions. Of course, these people have been affected from according to our data about 200 according to our data about 200 injuries in Pakistan. Thus, suffered from explosion of cluster munitions in Pakistan. Thus, As it was noted, many people have country.

Regional Region of the country.

Cluster munitions in different parts population occasionally find enforcement structures. Local
Thank you for your attention.

Cooperation, further strengthening our assistance in the implementation of the Mine Action Program for Pakistan, I am looking forward to the implementation of the Programme.

At the end of my speech, I would like to thank the GICHD and United Nations Development Programme for assistance to Pakistan in organizing events that are providing all the States and donor Republic of Pakistan. I would like to thank all the States and donor countries for the assistance in solving the seriousness of the issue and pays a significant role in the implementation of the Programme.

In conclusion, we are closely monitoring the situation and will continue to work towards a peaceful resolution.

Thank you for your attention.
