Status on Danish destruction Plan

Fourth Meeting of States Parties to the Convention on Cluster Munitions (CCM), Lusaka, 09-13 September 2013.

Presentation regarding status on the destruction of the stock of Cluster munitions in Denmark

Major Kim Willum Guldbech, Liaison and verification branch, Defence Command Denmark.
Background

Danish MoD decided in late 2011 to speed up the destruction process.

- The destruction process started in mid 2012.
- The company chosen for the destruction is Denex.
Scope

Destruction of:

27,000 ea DM 642 / 155 mm
15,000 ea DM 662 / 155 mm
20 ea Rockeye MK-20 / bombs

A total of 2,440,940 explosive submunitions.
Current status

Retention

• Denmark will keep 2700 (1\textsuperscript{st} August 2018) pieces of sub-munitions for training purpose.

• The submunition will be separated from the shell and stored in carbon tubes – and hence not operational anymore.
Packing and storing of bomblets for retention
Costs

The cost is still estimated to be approximately 1 Euro per bomblet.
