

Permanent Mission of Italy  
UN - Geneva

**Convention on Cluster Munitions**  
**Ninth Meeting of States Parties**  
*Geneva, 2 - 4 September 2019*

**International Cooperation and Assistance**

**Statement by Amb. Gianfranco Incarnato**  
**Permanent Representative of Italy to the Conference on Disarmament**

Mr. President,

At the outset, I would like to express my gratitude to the two Coordinators, the Netherlands and Peru, for all their extensive work throughout the past year on international cooperation and assistance activities and for their report on the implementation of Article 6.

Italy aligns itself with the statement of the European Union. I would like to add a few remarks in my national capacity.

Mr. President,

Italy remains deeply convinced of the important role of international cooperation and assistance for our common work in the framework of the Convention on Cluster Munitions. Therefore, a concrete operationalization of Article 6 is fundamental to assure the effective implementation of the Convention.

For Italy, this is more than a legal obligation. It is a long-standing commitment, as a part of our comprehensive approach to mine action.

A dedicated Trust Fund for Humanitarian Demining was set by law in 2001, allowing the allocation of resources to the CCM implementation, as well as to mine action projects relating to anti-personnel landmines and explosive remnants of war. Since then, Italy has devoted more than 58 million Euros to Mine Action programmes, with a particular focus on clearance, stockpile destruction, risk education and assistance to victims.

In 2019, Italy is supporting UNMAS activities in Iraq, Colombia, Palestine, Sudan, and Syria, relating to clearance, mine-risk education and survivor and indirect victims assistance. Our country is also contributing to ICRC activities in Afghanistan, the Democratic Republic of Congo and Somalia, relating to survivors' physical rehabilitation and socio-economic reinsertion. Moreover, the Italian Cooperation works together with UNDP in Yemen, for national mine action

capacity development and related technical support for detection and clearance operations, and with UNICEF in Ukraine, for activities relating to mine-risk education in schools. Finally, Italy is financing the OAS in Colombia, for activities relating to psycho-social and reinsertion assistance to ERW survivors.

Mr. President,

In carrying out these activities, we strongly believe that international assistance should not be limited to financial support, but should also include, to the extent possible, the sharing of experience, knowledge, and practical know-how. On this point, let me recall the involvement of the Italian Armed Forces operating abroad in clearance of explosive remnants of war, including cluster munitions, and the support of a dedicated national Centre of Excellence for countering all types of explosives devices, which has also been engaged in training and capacity building activities with third countries.

Our collaboration with several institutions in the implementation of its integrated mine action programs also shows the Italian commitment for multilateralism. Such partnerships – at all levels, with the UN, other international and regional organizations, civil society and survivors' organizations – are an effective way to fully implement the Convention, maximizing the contribution and impact of all the available expertise and knowledge.

Finally, yet importantly, the work of the Implementation Support Unit of the CCM is equally crucial to assist State Parties and to promote the universalization of the Convention. We therefore confirm our support to the Unit for 2019, at the same level as last year.

Before concluding, Mr. President, I would like to stress that the notions of "national ownership" and "donor coordination" are two key tenets of Italian Cooperation, including in humanitarian demining. Therefore, we greatly value initiatives such as the Country Coalition as well as the Individualized Approach, which translate these two notions into practice also in the framework of Mine Action. For this reason, we welcome the activities that have been conducted in their implementation.

Italy stands ready to contribute to all such efforts, geared towards enhancing the effectiveness of international assistance through greater coordination among all relevant stakeholders and at all levels, from multilateral to local.

Thank you, Mr. President.
