

Japan - ISU

I want to join the previous speakers in expressing our sincere thanks for Amb. of Lebanon for having conducted during her tenure an open and transparent consultation to solve the issue of ISU.

As Mr. President asked us to focus now on the process forward, Japan wants to express our support to your proposal to continue consultation during your tenure as mentioned in the WP. 5.

In upcoming consultation held by Mr. President, Japan will be engaged constructively in the discussions expressing our specific positions on the substance including those views we mentioned in the previous consultations.
