

# Reporting on Article 4

# What ?

- The size and location of all cluster munitions contaminated areas
- Information on the type, quantity and age of cluster munitions in each location, to the extent known.
- Information on the progress of programmes for the clearance.
- The size and location of all cleared cluster munitions contaminated areas
- Information on the type and quantity of cluster munitions remnants cleared or destroyed in each location.
- Form F

# Why ?

- Implementation of Art 4
- Picture of the extent of the contamination
- Monitoring the progress of the implementation
- Need for assistance

# Remark

- Article 7 reporting vs "operational" reporting
- Complementary
- New IMAS
- Source of information
