

Intervention of Lebanon on the ISU Funding

Intersessional Meeting of the Convention on Cluster Munitions

Geneva, 7-9 April 2014

Thank you Mr. coordinator for providing un with this non-paper on the funding of the ISU, as well as for your efforts.

Indeed, I had a question rather than an intervention in this regard, but it was eloquently raised by our distinguished Mexican colleague.

We would be grateful to know how this proposal of “opting out”, although looking attractive as a solution for the issues at hand, would work in the future, and how could we ensure predictable funding for the ISU, if we were not sure who and who is not paying here?

I thank you.
