Destruction Rate Update **Lot 2 Explosive Submunitions**

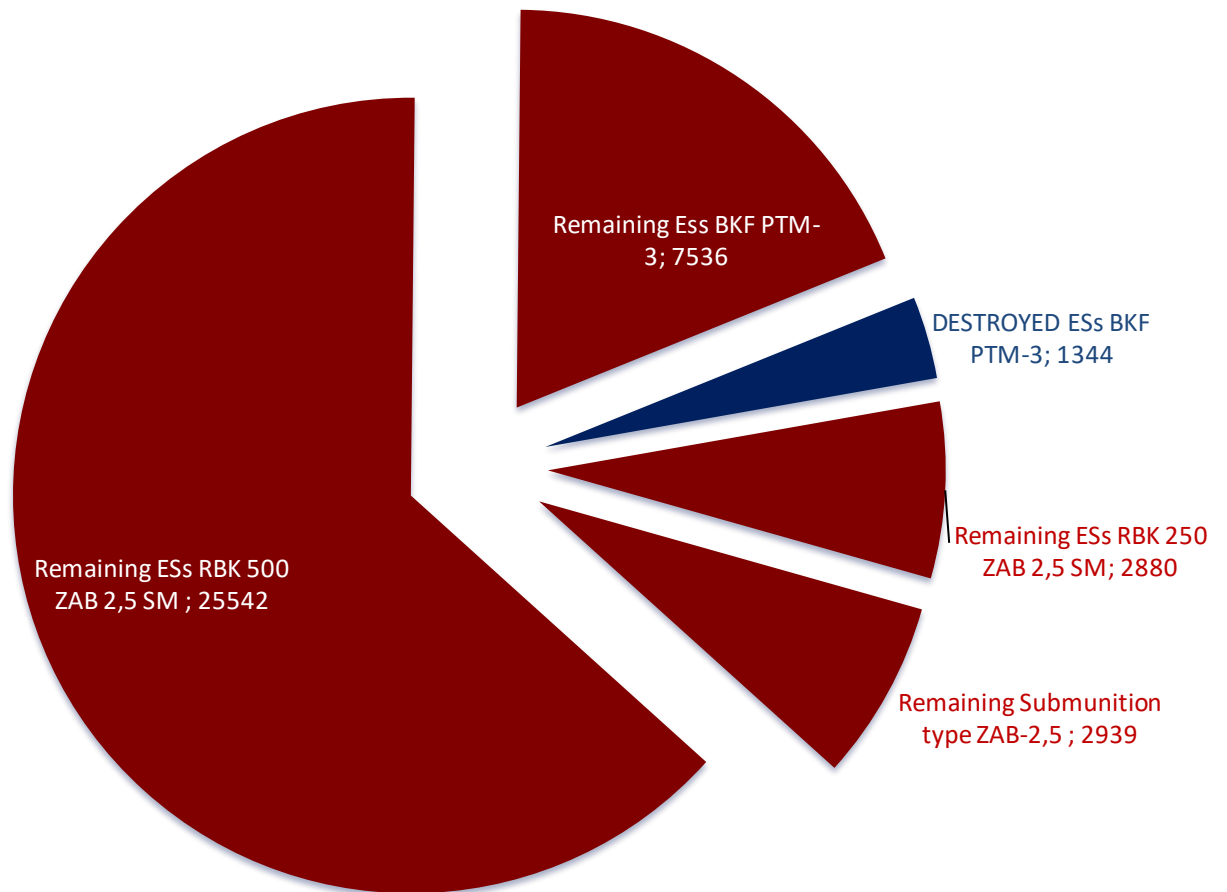

January 2021

The implementation of the project for the destruction of the Bulgarian Army's cluster munitions began in May 2020 with the transportation of the cluster munitions, allocated in Lot 2. By the end of 2020 all Lot 1 and Lot 2 explosive submunitions have been successfully transferred to the contractor's destruction facilities in Italy.

As of January 1 2021, **2** explosive submunitions type ZAB -2,5, **20076** explosive submunitions type RBK 250 PTAB-2,5 and **16812** explosive submunitions BKF PTAB 2,5 all of which listed under Lot 2 have been destroyed.

Destruction Rate Update **Lot 1 Explosive Submunitions** January 2021

By January 1 2021, **1344** explosive submunitions BKF PTM-3 allocated in Lot 1 have been successfully destroyed.
