### 72/54. Implementation of the Convention on Cluster Munitions

*The General Assembly,*

*Reaffirming its determination* to put an end for all time to the suffering and casualties caused by cluster munitions at the time of their use, when they fail to function as intended or when they are abandoned,

*Deploring* the recent rise in the use of cluster munitions and related civilian casualties, and calling upon those who continue to use cluster munitions to cease any such activity immediately,

*Conscious* that cluster munition remnants kill or maim civilians, including women and children, obstruct economic and social development, including through the loss of livelihood, impede post-conflict rehabilitation and reconstruction, delay or prevent the return of refugees and internally displaced persons, can have a negative impact on national and international peacebuilding and humanitarian assistance efforts, and have other severe consequences for many years after use,

*Concerned* about the dangers presented by the large national stockpiles of cluster munitions retained for operational use, and determined to ensure their rapid destruction,

*Believing it necessary* to contribute effectively in an efficient, coordinated manner to resolving the challenge of removing cluster munition remnants located throughout the world, and to ensure their destruction,

*Mindful* of the need to coordinate adequately efforts undertaken in various forums, including through the Convention on the Rights of Persons with Disabilities,<sup>1</sup>

to address the rights and needs of victims of various types of weapons, and resolved to avoid discrimination among victims of various types of weapons,

*Welcoming* the steps taken nationally, regionally and globally in recent years aimed at prohibiting, restricting or suspending the use, stockpiling, production and transfer of cluster munitions, and welcoming in this regard that, since 2014, all Central American States have joined the Convention, thus fulfilling their aspiration to become the first cluster munitions-free region in the world,

*Stressing* the role of public conscience in furthering the principles of humanity, as evidenced by the global call for an end to civilian suffering caused by cluster munitions, and recognizing the efforts to that end undertaken by the United Nations, the International Committee of the Red Cross, the Cluster Munition Coalition and numerous other non-governmental organizations around the world,

*Noting* that a total of 119 States have joined the Convention, 102 as States parties and 17 as signatories,

*Welcoming* the dialogue undertaken by the German presidency of the Seventh Meeting of States Parties with States not parties to the Convention, including the military-to-military dialogue, in support of universal adherence to the Convention, and recognizing the assistance that the country coalition concept can provide to affected countries in the implementation of their obligations under the Convention,
