Head of International Relations Division  
Ministry of National Defense

**División de Relaciones Internacionales  
Subsecretaría de Defensa**

# Considerations

- Last year, Chile submitted a first extension request for one year, for the execution of the Technical Surveys.
- Chile has been severely affected by the COVID-19 Pandemic had to prioritize resources.
- Armed Forces operate in support of the Health Authority, fulfilling security, logistical and health support tasks.

# Since last year

- National resources to carry out the Technical Surveys.
- Work plan was drawn up to execute the Technical Surveys.
- Technical Surveys. should be completed next December and their corresponding reports delivered no later than February 2022.
- Currently, special training is being developed for the personnel who will have to face this challenge.

# Work Plan

- **April to May 2021**, planning to carry out Technical Survey (TS) at the Armed Forces level, requirements and necessary resources are established.
- **May to July 2021**, management of necessary resources.
- **August 2021**, training of Explosive Ordnance Disposal Units (EOD).
- **September to October 2021**, planning to carry out Technical Survey at the EOD Unit level.
- **November to December 2021**, execution of the TS simultaneously
- **January to February 2022**, delivery of TS reports.

**Note:** Dates are approximate and subject to variations.

# Activities during extension period

- Formalize the new institutional framework in the Ministry of Defense.
- Determine the costs involved and prepare the corresponding planning.
- Prepare the military means that will participate in this work.
